

Amazing Testimonies

THE BIBLE SAYS IN THE BOOK OF REVELATIONS THAT THEY OVERCAME BY THE WORD OF BLOOD OF THE LAMB AND THE WORD OF THEIR TESTIMONY. AS THIS IS THE LAST EDITION OF THE MAGAZINE, WE HAVE PRESENTED SOME OF THE MOST NOTABLE TESTIMONIES OVER THE COURSE OF THE YEAR. WE PRAY THAT THEY WILL INSPIRE FAITH IN TO RECEIVE A TESTIMONY TOO.

HE HAS DONE IT AGAIN

On Thursday the 5th of June, 2008, my friend was rushed to the hospital and was in intensive care for 2 weeks. I called on the God of Pastor Yemi Adeleke to bring the dead back to life as there were complications, collapsed lungs, kidney failure, etc. On Friday against all odds and doctor's report from 3 good hospitals in London, my friend walked out of the hospital with her two legs, no dialysis, no oxygen or ventilator, she came out the way God created her with a whole sound mind. Brethren, I admonish you in any hopeless situation to call on God of Olayemi Adeleke, He will do it for you.

WITH GOD ALL THINGS ARE POSSIBLE

This time last year, I was diagnosed with PCOS. Its features are irregular menstrual period and infertility. I was placed on fertility treatment. Both my husband and I became frustrated as I was not pregnant even on the highest dose of fertility medication so I stopped taking these medications believing God for a miracle.

To the glory of God, last month I realised that I was pregnant. I want to praise God because His ways and thoughts are different from that of man. I got pregnant despite the doctor's report that I was infertile.

SIS BUKOLA ONUOHA

GOD IS A WONDER!

Please join me us in praising God for giving us a bouncing baby boy after 24 years of marriage. He has wiped our tears and given us victory at last.

MR & MRS K. OWOEYE

UNQUESTIONABLE IS OUR GOD

I thank God for a short, quick and easy delivery. I went to the hospital for a check up, and when I got there, I was told I was going to be monitored. While the baby was being monitored, they noticed his heart beat was irregular with contractions, over a period of time the situation was still the same and the gynaecologist came and told me that I needed to have an emergency C-Section in 5 minutes. On the theatre table, the anaesthetist could not find a good place in my spine to inject the Epidural. Just minutes later, I had the urge to push and the baby came out to their amazement. Glory be to God. I gave birth to a healthy son. Praise God.

BANKE SODUNKE

DOUBLE PORTION RESTORATION

I am thanking God for glorifying Himself upon my nephew's household. In September 2007, he lost his nine-month old baby. To the glory of God, the Lord blessed him with bountiful baby girls. The Lord surprised them with twins less than a year of losing their first son. Thank you my Lord for your faithfulness.

BILLIONAIRE BOLA SALIHU

HELP OF THE HELPLESS

I thank God for His mercy over me. 10 years ago I lost my parents and continuing my education became a mountain. To the glory of God, a company was awarding scholarships, so I applied to participate. I was given the scholarship and I didn't pay anything throughout my degree. Few years later, I finished the course with a First Class, to the glory of God.
